

Remington Business Group Italia - Update

Due to Remington Business Group's recent focus on business development in Italy, we are now offering our brochure / marketing materials in Italian! We have also translated our contract into Italian and are finalizing the translation of all of our other documents as well.

We are currently in a dialogue process with leads, partners and prospects in sectors that include specialty food including Italian manufacturers of wine, olive oil, sweets, pasta, condiments and also Italian design and travel locations.

Featured Article on Remington Business Group in the News!

As previously announced, Remington Business Group has expanded on its Global Expansion Services and is now proactively offering assistance to smaller U.S. based companies interested in establishing business in other countries. Through our internationally trusted partnerships, we can provide management services, and tailor designed consulting services to small U.S. based companies to help them achieve international growth and expansion.

Our Global Expansion Service can work both ways. Foreign distributors, or companies, can ask us to look for a U.S. based company that offers a product that they feel will be successful in their territory and we will initiate such a search, contact the relevant parties and initiate a process to connect both parties. It has been our experience that when a local U.S. company is contacted by us and asked if they would be interested in exporting their products the answer is invariably - YES.

Remington Business Group will be conducting international business strategy seminars throughout the remainder of this year and 2010 through our local chambers of commerce and rotary clubs. Please visit our website <http://www.remingtonbusinessgroup.com/> for more global expansion details and email us at <mailto:info@remingtonbusinessgroup.com> if you are interested in attending an upcoming seminar or would like us to present to your group or organization.

Danish Business Forum Article

Remington Business Group was recently asked by the Danish Business Forum to provide an article on the advantages of doing business in the Northeastern United States. The article, '**Benefiting from Local Partnerships, A Northeastern Example**' contains an overview of our experience of doing business in the New York Metro Area and some tips on what Danish, or other foreign companies, should consider when thinking about a location to place their future U.S. business.

If you wish to discuss your questions regarding where you should be locating your U.S. subsidiary please feel free to contact us for a free consultation by [clicking here](#).

Remington Business Group serves as a unique gateway to and from the U.S. Our mission is to help smaller companies, both foreign and U.S based, expand to new markets and realize their international ambitions.

Yours might be an American company wishing to expand overseas, or perhaps your foreign business wants to access the U.S. market. Either way, Remington Business Group will help you move in the right direction. Through extensive knowledge, creativity and trusted multinational collaborations, we ensure that your business needs are met anytime and anywhere.

Remington Business Group, Partners Across Borders.
