## **New Remington Business Group Partner - Replicon Group**

Remington Business Group is proud to announce its latest partnership with Replicon Group of Finland.

Replicon Group is an independent provider of financial and M&A advisory and related strategic consulting for growth and technology companies. In their focus areas they also provide hands on business accelerator services for selected companies, as well as assist in implementing public-private partnerships. Replicon Group's main office is based in Helsinki, Finland, which may also serve as an ideal expansion location to nearby Swedish, Estonian and St. Petersburg markets. Since its inception, Replicon has gained a significant role in financing transactions within some specific technology driven growth sectors of the economy, e.g. in ICT, Cleantech and Life Science sectors.

Replicon's core competence is in identifying and creating long-term shareholder value for their clients. Replicon's team has experience that includes financing, investments, project evaluation and have established close contacts with all domestic financiers and developed an extensive network of technology specialists. Replicon also prides itself in its domestic and international collaboration relationships, amongst them the partnership with Remington Business Group, for the successful completion of even the most demanding customer projects.

"We are proud to have Replicon Group join our international partner network, enabling us to offer our services to Finnish companies interested in U.S. expansion and, at the same time, offer Replicon Group's services to U.S. based companies. Doing business in a foreign country is a challenging proposition that is best approached with local support. Now, U.S. based companies can rely on Replicon Group's support and execution in Scandinavia while Remington Business Group offers them the local U.S. liaison and support every small company requires around such an ambitious project as initiating foreign activities" says Yoav Amiri, President of the Remington Business Group.

Remington Business Group serves as a unique gateway to and from the U.S. Its mission is to help smaller companies, both foreign and U.S based, expand to new markets and realize their international ambitions. Through extensive knowledge, creativity and trusted multinational collaborations, Remington Business Group can deliver support to its clients efficiently and cost-effectively, serving as their partners across borders.
